

Next Generation R-Series Oil-Flooded Rotary Screw Air Compressors

15-22kw (20-30 hp), 50 Hz ie and ne Premium Efficiency

Ingersoll Rand works to keep you ahead of your competition with Next Generation R-Series air compressors that lower total cost of ownership through industry leading energy efficiency, reliable components and best-in-class delivered capacity.

World-class performance

- **State-of-the-art airend** delivers up to 17.5% improved efficiency and 18% more airflow capacity
- **IE3 premium TEFC motor** and optional variable speed drive (VSD) decrease energy demands
- **V-Shield™ technology** provides a totally integrated, leak-free design, featuring PTFE stainless steel braided oil hoses and O-ring face seals
- **Components that provide reliable air for life**, including a free-floating cooling system, two-stage air filters and elastomeric O-rings
- **PartsCARE™ service program** ensures proper maintenance and longer product life, as well as extends your warranty

- **Enhanced serviceability** ensures increased uptime with two-stage filtration, easy maintenance and Ingersoll Rand extended life, premium grade coolant
- **Xe-70M controller** provides full control and connectivity with easy-to-read diagnostics, resulting in less down time and increased productivity for your compressed air system
- **Hinged-door service access with integrated handles** provides quick, easy access to all user-maintainable components
- **Optional Total Air System (TAS)** with integrated dryer and 3-in-1 heat exchanger provides clean, dry air in a single package that minimises installation costs, reduces footprint and improves ISO air quality

Standard features include:	Optional features include:
Premium performance airend	Total Air System (TAS) package with integrated air dryer
Energy saving, intuitive Xe-70M Series controller with remote access	Outdoor modification/rain protection
Air-cooled, free-floating cooling system	Low ambient temperature protection as low as -10°C (14°F)
V-Shield™ vibration isolation, PTFE hoses, leak-free connections	Ultra EL lubricant (extended 16,000-hour life)
Noise attenuation enclosure with hinged removable doors for easy service access	Ultra FG lubricant (food grade)
Packaged pre-filtration	Power outage automatic restart option (PORO)
Long-life Ultra Coolant with 8,000-hour life	Flow control inlet modulation
Long-life filtration and separation elements	Phase monitor protection
Star-Delta reduced voltage starter	Comprehensive service and coverage plans with extended warranty
IE3 TEFC motor	
NEMA® Type-4/IP55 enclosure, rated for 46°C (115°F) ambient operation	

ie Standard 50 Hz Performance
