

HYCON HH10RV PICK HAMMER

PRODUCT FEATURES

HYCON HH10RV is an exceptionally handy lightweight pick hammer designed for horizontal breaking in walls, brick wall and reinforced concrete. The low weight and compact design makes it very suitable for narrow working places.

The HH10RV is a very popular hammer among contractors, telecom, supply companies (power-water-gas-sewage), and is a true "hit" for rental.

HH10RV is the strongest 10 kg pick hammer on the market, and no pneumatic nor electric breaker has anything like the same performance.

The standard tool size is hex 19x50 mm. The hammer can be supplied from any HYCON HPP power pack with a 20 l.p.m. option.

HYDRAULIC PICK HAMMER HH10RV

Item no. HH10RV (HEX 19x50 mm)	1010110
Weight, kg	9,9
